

Focus Areas of the Foundation

**Education &
Skill Development**

Healthcare

**Environmental
Sustainability**

OVERVIEW

Dear Readers,

GMM Pfaudler Foundation is dedicated to fostering sustainable change in our community and environment. Our ongoing commitment to education, healthcare, and environmental sustainability continues to drive meaningful efforts.

Our partnerships with JV Patel Industrial Training Institute, Catalyst for Social Action and government schools in Gujarat are focused on promoting education and skill development enhancing learning experiences and vocational training opportunities for the local youth and children.

Our healthcare initiatives, including SPARSH 2.0 and our collaboration with ESIC Hospital, continue to provide essential healthcare services across villages and underprivileged communities.

Our environmental programs such as Marine Megafauna Rescue and Re(ef) Generate continue their efforts to address stranded marine megafauna cases and rehabilitate coral reefs.

HIGHLIGHTS

Education & Skill Development

■ Upgradation of facilities at JV Patel Industrial Training Institute at Karamsad, Gujarat

To improve the quality of education and employment prospects for students, the Foundation has partnered with JV Patel ITI to provide skill development training and modernize the Institute's facilities, creating a more conducive learning environment.

The Foundation has constructed a canteen and installed a water filter & cooler at the institute. This initiative ensures that students have convenient access to safe and hygienic dining facilities as well as clean drinking water, aiming to reduce health risks.

Additionally, the Foundation has constructed a female washroom at the institute, providing essential hygiene facilities for female students and staff.

Furthermore, the Foundation has also undertaken the construction of a new wing in a phased manner. The new wing will enable the introduction of additional vocational programs, thereby catering to a larger student population and addressing their educational needs.

In FY24, JV Patel ITI successfully organized over 20+ placement drives, resulting in the placement of more than 135 students, significantly enhancing their employment prospects.

To create an enriching and pleasing environment for the students, the Foundation organized a tree plantation drive at JV Patel ITI. As part of this initiative, about 1000 saplings were planted by the students. These saplings are closely monitored to ensure a high survival rate and healthy growth.

Tree Plantation Drive

■ Project Adopt a Home at Sangli, Maharashtra

Our collaboration with Catalyst for Social Action continues to extend educational support and ensure basic safety of over 60 underprivileged children across two childcares institutions (CCI's) at Sangli, Maharashtra. As part of this initiative, the children are given access to a library, which enhances their reading, language, and comprehension skills. Additionally, child safety sessions were conducted at both childcare institutions to emphasize safety and raise awareness among the children.

A 10-day self-defence karate workshop was organized, engaging the children in activities that not only improved their physical fitness but also focused on building strength, endurance, flexibility, and overall ability.

As part of their recreational activities, children were given sports shoes for a cricket match to encourage their participation in a tournament and boost their confidence. This initiative fosters an inclusive and joyful environment, promoting active involvement and fair play.

A 10-day self-defence Karate Workshop

■ Upgrading sanitation facilities & providing basic requirement at Railway Station Primary School at Karamsad, Gujarat.

GMM Pfaudler Foundation has upgraded the sanitation and drinking water facilities at the school. Additionally, the Foundation has supported the students by providing school bags and PT uniforms.

Donation of School Bags & PT Uniform

■ Provision of drinking water facility at Vatva Gujarati Saraswathi Vidhyamandir School, Vatva Gujarat.

GMM Pfaudler Foundation has installed two water filters and water cooler systems at the school with an aim to provide a sustainable solution for a clean and safe drinking water for the students.

In FY24, the Foundation has made a positive impact on over 2,000 students through its Education and Skill Development initiatives.

SPARSH 2.0 Medical Camps

Healthcare

■ Shree Krishna Hospital Programme for Advancement of Rural and Social Health (SPARSH 2.0)

GMM Pfaudler Foundation has partnered with Charutar Arogya Mandal in implementation of SPARSH 2.0, which focuses on addressing risk indicators for Non-Communicable Diseases (NCDs) such as pre-obesity, central obesity, pre-hypertension, and pre-diabetes.

The project aims to offer preventive screening and healthcare across 100 villages in and around Anand, Gujarat.

420+
camps conducted
in FY24

10,000+

in FY24

■ Upgrading facilities in the mother and childcare division at ESIC Hospital at Nacharam, Hyderabad

GMM Pfaudler Foundation has undertaken a 3-year long phased upgradation of the maternity ward at ESIC Hospital Nacharam, Hyderabad. In addition to the four-equipment donated in FY23, the Foundation has donated six additional equipment in FY24.

This equipment improves the ability of healthcare professionals to oversee and monitor the health needs of mothers and newborns.

Employee Engagement Activities

GMM Pfaudler Foundation in collaboration with Shree Krishna Hospital, organised a blood donation camp at JV Patel ITI. Employees of GMM Pfaudler along with students and staff members from JV Patel ITI actively participated in this camp.

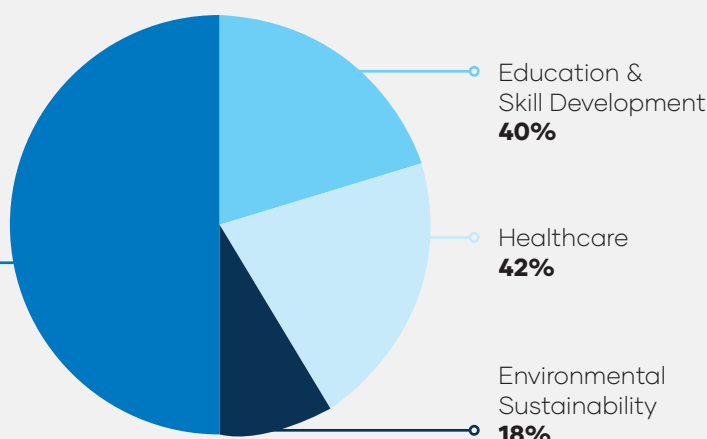

GMM Pfaudler Foundation under Project SPARSH 2.0 organized sensitization session for the employees. The session aimed to impart knowledge about the project and provide basic information on measuring various health parameters used in the during medical camps conducted by Mobile Health Teams (MHT). Following these sessions, employees actively volunteered in the MHT camps organized a in the villages.
